## ► Vehicle with M/T

1. Prior to removing the equalizer nut, make the installation mark at the front, under the vehicle.

2. Unscrew the nut (12 mm) on the equalizer anti-clockwise (A) completely to detach the parking cable.

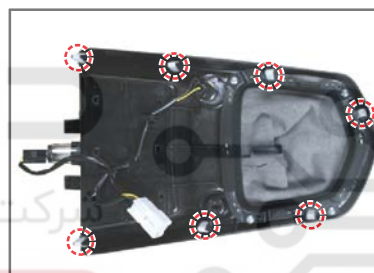

3. Unfasten a snap fastener on the TGS M/T boot.

4. Detach the front console M/T upper fascia assembly from the front console assembly using a hand remover while paying attention not to damage the clips (7 off).

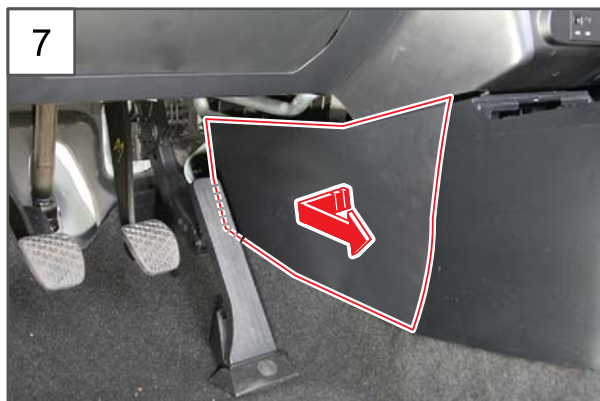

5. Disconnect the front console upper fascia wiring connector connected to the rear side of the front console M/T upper fascia assembly.

6. Remove the front console M/T upper fascia assembly.

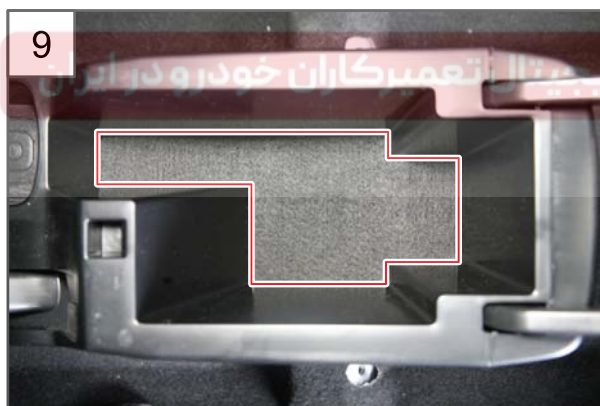

Modification basis
